

## FINEO FO S112 F U-bracket

Article number: (black) 1008064, (white/RAL\*) 1008104

With the S112 F U bracket, the flyable FO S112 F subwoofer can be mounted to a ceiling. The FO 112 F can also be tilted at a slight downward angle to allow foreign objects or liquids that may enter the bass reflex port to easily fall out or drain away.

The FO 112 F U-bracket is made of high-strength steel and covered with a powder coating. Just like the speaker, the U-bracket also has a ball-impact resistance certificate in line with DIN 18032-3. Test statics for operation over an audience can be provided if required.

### Technical data
